SKILLS

Programming Languages: Java | HTML | CSS | JavaScript

Frameworks and Libraries: React.js | Node.js | Bootstrap | jQuery | Spring | Hibernate | JUnit | REST APIs

Database: MySQL | MongoDB

Software Development Principles: Object-Oriented Programming (OOP), Design Patterns

Development Tools: Git | Postman | VS Code | Maven

Operating Systems: Linux | Windows

Other Skills: DSA

Soft skills: Communication | Problem Solving | Team Work | Adaptability

EXPERIENCE

Capgemini Technology Services - Software Engineer

10/2022 - 02/2024

- Developed and implemented **features** for the **Micromedex HIL** project, utilizing **React.js** for frontend and **Java, Spring Boot** for backend to manage patient data and drug details.
- Developed and optimized RESTful APIs using **Spring Boot**, reducing API response time by 30%.
- Increased code coverage for assigned modules by **20%** through unit testing with **JUnit**, showcasing commitment to quality code.
- Collaborated in **Agile** teams, actively participating in **sprint planning, daily stand-ups, and code reviews**.

ACHIEVEMENTS

- Successfully completed Java Full Stack Level 1 and 2 assessments organized by Ocean in Capgemini, demonstrating proficiency in Java Full Stack development.
- Oracle Certified Associate, Java SE 8 Programmer (1Z0-808).

EDUCATION

Bachelor of Technology - Computer Science & Engineering

2018 - 2022

Narasaraopeta Institute of Technology, JNTUK - 68%

Board of Intermediate Education

2016 - 2018

Bhashyam Junior College, Guntur - 89%

PROJECTS

Medi Search Application:

- Built a secure Medi Search application with **CRUD** operations, **role-based access**, and **REST APIs** using **Spring Boot, Java, JSP, MySQL**, and **Postman** for secure and efficient medicine management.

Jewelry E-Commerce Website:

- Designed a full-stack jewelry e-commerce platform using **Bootstrap, JavaScript, Node.js, Express**, and **MongoDB** implementing dynamic product listings, secure user authentication, and boosting user engagement.

To-Do Application:

- Developed a dynamic To-Do App using **JavaScript, React, MUI, Bootstrap, Node.js, Express**, and **MongoDB** with task prioritization and real-time syncing. Designed a responsive UI and optimized state management for seamless performance.
